

Help Your Baby Learn and Grow

You can help your baby learn and grow. Talk, read, sing, and play together every day. Below are some activities to enjoy with your 9-month-old baby today.

What You Can Do for Your 9-Month-Old:

- Pay attention to the way he reacts to new situations and people; try to continue to do things that make your baby happy and comfortable.
- As she moves around more, stay close so she knows that you are near.
- Continue with routines; they are especially important now.
- Play games with “my turn, your turn.”
- Say what you think your baby is feeling. For example, say, “You are so sad, let’s see if we can make you feel better.”
- Describe what your baby is looking at; for example, “red, round ball.”
- Talk about what your baby wants when he points at something.
- Copy your baby’s sounds and words.
- Ask for behaviors that you want. For example, instead of saying “don’t stand,” say “time to sit.”
- Teach cause-and-effect by rolling balls back and forth, pushing toy cars and trucks, and putting blocks in and out of a container.
- Play peek-a-boo and hide-and-seek.
- Read and talk to your baby.
- Provide lots of room for your baby to move and explore in a safe area.
- Put your baby close to things that she can pull up on safely.
